# Recycling = ROI

It would be great if we were all in a position to make business decisions based solely on the desire to create a greater good for our communities and planet. We all know that business decisions need to make financial sense.

That's why whether your mandate is generating new revenue streams or cutting costs to increase profitability, we can custom tailor a recycling program with our robust range of products and services to help you achieve the success that is unique to your business.

# Protecting the environment. And your investment.

CleanRiver has been providing recycling solutions since 1990. We were around when recycling just meant having a blue bin beside your trash can. And while recycling is more complex today than at the turn of the century, your recycling program doesn't have to be.

At CleanRiver, we get it. We understand that today you might need a program to collect separate streams for waste, paper and bottles & cans. Even still, next year you might be mandated to add composting to your program.

Or perhaps you'll be able to reduce streams because of new sorting facilities in your municipality. But that doesn't mean you have to wait for change to be cutting edge.

CleanRiver is also committed to helping you understand that recyclables are more than just a means to divert waste from landfills. They are also an asset that can help drive funding for your sustainability initiatives. And we'd love to help you uncover those savings to help realize a tangible return on your recycling program investment.

# The Transition<sup>®</sup> line of future ready solutions

 **Zero Waste**  
2 Divisions

# FUTURE READY

## **Future Ready Bins**

Change is constant: the ability to add, remove or right-size your containers is critical to any recycling program's success. Waste receptacles seriously outnumber recycling stations in most facilities.

As a result, material that could be recycled or composted ends up in landfills and potentially valuable recycling commodities are lost. Transition® recycling bins do just that and are so flexible that you'll never have to buy a regular trash can again.

✓ TOP PICK

**FLEX E™**

## INTRODUCING THE ALL NEW FLEX E™ BIN

Collect up to 3 different streams of waste and recycling in one 50 gallon bin that changes when you need it to. Go from single-stream to double-stream to multi-stream in a snap – no tools required.

# Versatile and flexible to solve almost any recycling need.

Made from 55% recycled High-Density Polyethylene (HDPE), all packages offer your choice of 1, 2 or 3 streams and standard lid labels.

## Package A: Standard

- Flex E™ Bin Base
- Standard Lid

## Package B: Standard Backboard

- Flex E™ Bin Base
- Standard Lid
- Backboard with Stream Labels

## Package C: Hinged Lid

- Flex E™ Bin Base
- Hinged Lid

## Package D: Hinged Lid & Backboard

- Flex E™ Bin Base
- Hinged Lid
- Backboard with Stream Labels

Additional options available include weighted base, locks and connectors.

# Flex E™ Bin

The all new Flex E™ bin is versatile and flexible to solve almost any recycling need. Transition® technology converts your 50 gallon bin in less than 5 minutes with our snap-together opening system. You won't ever need three bins again!

Start with our easy Flex E™ bin packages and customize your bins with optional add-on features:

**Available in 4 standard colors:**

# eBIN

Electronic waste is becoming an important component of recycling programs. This attractive, sturdy container can collect up to 4 separate streams of electronic waste, while the locking mechanism keeps your recyclables secure.

Customize the high impact graphics to suit your collection requirements. Ideal for placement in high traffic areas. Made from 97% recyclable HDPE, this container complements any recycling program.

Tip: Ensure batteries are collecting in the bottom of the bin because of the weight.

# CUSTOM SOLUTIONS

## **Custom Solutions**

Sometimes your recycling needs are as unique as the business you are in. CleanRiver is your partner in the design and manufacture of customized solutions that help you recycle in ways others can't.

Give us a call and we'll listen to what you're looking for and come back to you with a solution that's exclusively yours.

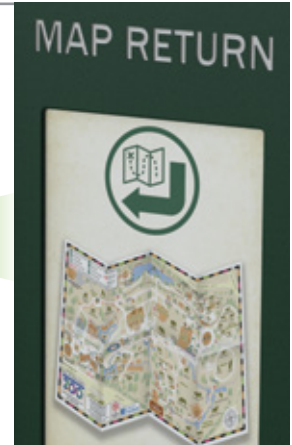

## Blackberry

Blackberry was throwing away gloves by the handful. So CleanRiver designed a bin just for gloves so they are collected, washed and reused, resulting in less cost to replace gloves as well as reduced landfill fees.

## Little Rock Zoo

Little Rock Zoo was wasting money on reprinting maps. So CleanRiver added a unique graphic to their existing bins so maps can be reused by future visitors.

## Loyola University

Loyola University New Orleans wanted to improve student engagement with recycling waste on campus. So CleanRiver created custom opening plates featuring their Wolf Pack Athletics paw print as a spirited way to encourage proper usage.

## Roll Out Cart Enclosure

Coastal Carolina University needed to keep high traffic areas as clear as possible for fans. So CleanRiver custom-designed a container that houses two 48 gallon roll-out carts to collect all the post-game waste without taking up too much room. The unit's front service doors and custom-designed lowered floor were designed to help make the custodial team's job easier when emptying the high volume of waste and recycling collected in the containers.

# SUSTAINABILITY

## Zero waste is within our reach.

It all started with a concept 25 years ago. Most of the waste we generate is recyclable. The thing is, not everyone recycles. CleanRiver's recycling programs are designed to help everyone learn to reduce the amount of trash they generate to fill a five inch Mini Bin every week – making the concept of a world without waste a reality we can achieve together.

Contact CleanRiver at 1-888-646-4246 today to start your journey towards zero waste with the Mini Bin!

# Zero waste reality checklist.

Key questions to ask yourself.

## CULTURE

- |   |  |
|---|--|
| 1. Is Senior Management on board with the program?                                    | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| 2. Are people engaged in the program?   | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| 3. Are you working with your suppliers to get them involved in your zero waste goals? | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| 4. Is the custodial team involved with the development of your recycling program?     | <input type="checkbox"/> YES <input type="checkbox"/> NO |

## COMMUNICATION

- |   |  |
|---|--|
| 5. Do your recycling bins clearly identify what can be collected with labels and images?          | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| 6. Have you trained your employees on how to effectively use your recycling program?              | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| 7. Do you have regular communication meetings to reinforce the recycling program?                 | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| 8. Are you regularly reviewing the results of your program and identifying areas for improvement? | <input type="checkbox"/> YES <input type="checkbox"/> NO |

## COLLECTION

- |   |  |
|---|--|
| 9. Have you clearly identified the various locations where the most waste is generated?                           | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| 10. Do you know the volume of waste you generate and how often the bins are serviced?                             | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| 11. Have you reviewed your waste hauler contract for any savings or rebates available with increased recyclables? | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| 12. Have you checked with your waste hauler on what can be collected in each stream?                              | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| 13. Do you have bins that will adapt as your program changes?   | <input type="checkbox"/> YES <input type="checkbox"/> NO |

**Areas you still need to explore? We're here to help.**

Call our sustainability advisors at 1-888-646-4246. We'll assist you in implementing a recycling program that engages your team and achieves your sustainability goals.

# Never Waste A Moment

Here at CleanRiver, we strive to connect in a different way. Our mantra: Never Waste A Moment is about spending time to build real connections with the people in our lives and appreciate the community we take part in creating.

By slowing down to focus on being in the moment we're able to cherish our experiences more, build lasting memories and truly enjoy our shared moments on this planet.
